

# Grabba Rugged.

GRABBA

## Field-ready mobile biometrics for the front line.

Engineered for extreme conditions. Uncompromising precision across multiple modalities for every mission.

In high-pressure environments where accuracy is critical, Grabba Rugged delivers. Designed for frontline teams operating in harsh and unpredictable conditions, it provides fast, secure biometric verification and enrolment - whether you're at a border checkpoint, a law enforcement officer in the field, or managing access to sensitive locations.

With seamless compatibility across iOS and Android, and up to seven biometric and biographic technologies, Grabba Rugged turns your existing mobile device into a trusted identity platform ready for deployment, anytime, anywhere.

### Build Your Biometric Capability

FAP10 - 45  
Fingerprint Scanner

Facial Recognition Capable

1D & 2D Barcode Scanner with MRZ

Dual RFID Scanner

Smartcard Reader

# Why Choose Grabba Rugged?

Grabba Rugged is built for performance under pressure. With integrated biometric and biographic technologies—including fingerprint, facial and more—it delivers secure identity management in a single mobile platform. Advanced encryption, rapid enrolment, and seamless iOS and Android compatibility ensure operational efficiency, while its durable design stands up to the most demanding environments.

## Specifications

### Device Compatibility

Build your own device-ready for iOS and Android smartphones via Universal MagTray

### Rugged Design

IP and MIL-rated polycarbonate with TPE rubber for shock and impact resistance

### Battery Capacity

High capacity 6000 mAh for extended field use

### Charging Options

USB-C 65W PD, with optional wireless charging

### Dimensions

85mm W x 163mm L x 42.7mm T

## Frontline Capabilities

### Border Security

Rapid identity verification at ports of entry

### Law Enforcement

On-the-spot biometric checks during patrols

### Access Management

Secure identification and access control

## Identity Secured.
