

Fast, secure mobile biometric identity verification and access control.

Unmatched flexibility without complexity. Turn any smartphone into a trusted security platform. Sleek, lightweight, and cost-effective.

From borders to hospitals, retail counters to corporate facilities, Grabba Compact delivers fast and accurate identity checks. Built for environments where speed and reliability matter most, whether authenticating travellers, onboarding customers, admitting patients or securing sensitive areas, all in one mobile device.

Compact combines versatility with simplicity. With Bring Your Own Device compatibility across iOS and Android, its modular design supports up to six integrated technologies so organisations can tailor capabilities to their needs. Compact delivers fast processing in a slim, lightweight form factor, providing enterprise-grade security in a solution that's sleek and affordable.

Build Your Biometric Capability
